CHILD SAFETY TIPS

500,000 Children in a year are reported missing in the United States and Canada, these statistics are horrifying, but an identification booklet will provide you a peace of mind and measure of extra security where every second counts.

Let's keep our children safe and talk about safety tips below with them.

1. Do not walk away with anyone other than a parent or arranged family member.
2. Avoid getting into cars with strangers at all costs.
3. Remember, an adult will not need help from a child, do not listen to "I need help finding my kitten."
4. Know your name, phone number, and address.
5. If your child wanders off at the store, instruct them to go to the counter and announce they cannot find you. They should remain there until you locate them. Do not wander off.
6. Explain to them that no one is allowed to touch their body except for mommy and daddy if needed.
7. Always try to walk to and from school in groups.
8. Never post any of your personal contact information on social media and networking sites.
9. Check with your parents before posting any pictures online.
10. Take interest in the Internet sites your child visits and monitor their computer usage.
